Shaving the Way to Conquer Kids' Cancer

## Show your support for Michael Page and the St Baldrick's Foundation

St Baldrick's Day believes in giving children a chance to win the battle against childhood cancer.

In Hong Kong there are over 160 new cases of childhood cancer diagnosed each year. Unfortunately, an average of five children per month in the Territory will lose their battle with this disease. That is five children too many!

Since the medical treatment given to child cancer patients causes their hair to fall out, in solidarity with these kids, St Baldricks volunteers have their heads shaven bald in public in return for pledges of financial support.

### How you can show your support

You can support the St Baldrick's Foundation in the following ways:

1. Join me on the Michael Page team of Brave Shavees or
2. Sponsor the team as their heads are shaven bald in public to support childhood cancer research.

The 4th Annual St Baldrick's Day events are going to be held on:

- Tuesday 21 April at the Dublin Jack in Lan Kwai Fong.
- Thursday 23 April at The Hong Kong International School in Tai Tam.

All donations will go towards Childhood cancer research in Hong Kong.
